

FRIENDSHIP ARCHES

District A-3 encourages all Lions Clubs to consider the Purchase of an Arch.
An Arch in a community is symbolic of a successful Lions Club and communities that Supports and cares about the great work we do.

Once again there are 2 types of arches available.
Each Arch is identical in size and the price quoted is FOB the factory. The fibreglass arch needs to have the decals purchased from Lions Supply office and sent to the supplier. The decal number is D 100.

As you may know Hygrade Concrete has ceased making the arches. The good news is that the moulds for the concrete arch has been purchase by the Thorndale Lions Club. The Thorndale Club are now making the arches. Below is the contact and pricing of the Fibreglass and Concrete Arches.
